It's in Loren's section. As a non-npl site, State is lead.

Can you shed any light on this growing media story about radiation on TI? Thanks. Richard

Peter: Thanks for taking the time this morning to speak with us. I am tracking down our Regional Federal facilities folks to see what they know about this as well.

Kim/John,
Here is the e-mail I referred to in my voicemails. Not sure who you would like as a POC for EPA. Maybe we can refer him to his Region 9 Federal Facilities person working it?

Thanks,
Kathy

Pete,

Below is the only email from him. He is a member of RRT-9 (Region Response Team) that meets quarterly. He called me earlier thinking I may know what is going on at Treasure Island. He basically would like to simply touch base with someone from the Navy (per the article in the link here) to better educate himself on what is going on there. His cell phone number is: 415-816-6314. Thanks.

V/r,
Tito

Tito: Good to talk with you this morning. Here is a link to one of the articles I was talking about today.

<http://www.sfgate.com/bayarea/article/Navy-cleanup-forces-dozens-to-move-on-Treasure-5029425.php>

Looking forward to talking with you later today.

Regards

Lance
